MEMORANDUM FOR: Project Contracting Officer

SUBJECT: Additional Requirement for System #1
Equipments

1. Various factors have combined to throw the System #1 equipment availability and distribution out of joint. Not the least of these are the equipment modifications [redacted] and the fact that Detachment "A" has a double set of units: 5 original type plus the first 5 modified units. As discussed at a conference attended by Mr. Bissell, [redacted] and ourselves, it appears appropriate to divert 9 System #1 assemblies from the Commo procurement to AQUATONE.

2. Would you therefore duly authorize and direct the contractor to deliver them to [redacted]
